Wagner Resources, Inc. (WRI) is a **woman-owned, minority-owned** small business offering experienced Information Technology, Organizational Management, and Administration Support Services. Founded in June 2003, WRI is focused on the principle of **Exceeding Expectations**, providing quality services to government agencies and mid-sized commercial businesses intending to provide their products and/or services to government agencies. Headquartered in Gaithersburg, Maryland, WRI is conveniently located along the I-270 technology access corridor, and our strong local presence ensures our ability to provide reliable, immediate, and extended support to clients in the DC/MD/VA Metropolitan area.

We are devoted to providing rigorously-screened employees with the requisite skills, professional experience, personal commitment, and ethical standards necessary to support our clients. WRI delivers consistently high-quality and innovative business solutions in the following areas:

### INFORMATION TECHNOLOGY SERVICES

#### Systems Development & Integration

We review current architecture and offer expert recommendations for the integration of overall system processes resulting in the increased efficiency of business operations.

#### Custom Software Application Design & Development

We create custom software applications to perform specific business functions in direct support of client needs.

### ORGANIZATIONAL MANAGEMENT SERVICES

#### Business Process Re-engineering

We provide in-depth consulting in the development and modification of business processes to improve the efficiency and effectiveness.

#### Strategic Business Planning

We offer innovative business solutions and planning services in support of business operations and corporate management including:

- Facilitation, Negotiations, and other Alternative Dispute Resolution
- Contracts Management and Administration

#### Program and Project Management

Our skilled team of Project Management Professionals enable our clients with the expertise necessary to execute and control cost, schedule, and quality for a single project or an entire portfolio.

#### OMB Exhibit 300 Support

We develop and review OMB 300 Business Case submissions that are not only OMB standards-compliant, but will also earn a high PART score.

#### Planning, Programming, and Budget Execution (PPBE)

We provide consulting in support of the financial management needed for business improvement efforts including:

- Cost-effectiveness and Cost Benefit Analysis
- Program and Budget Analysis/Development

### ADMINISTRATION SUPPORT SERVICES

We deliver administrative and clerical support services by consistently providing reliable and meticulous employees to satisfy client needs involving payroll, benefits, transcription, data entry, and receptionist services.
